You can own a Florida farm home like this, and have besides a big income for life.

N. E. DICKMAN,
Ruskin, Florida.

Gentlemen: Please send me, free of charge and without obligation on my part, full information about how one man made \$16,000 a year on his forty-eight-acre farm and your plan of allotting the Ruskin lands. Also maps and letters from your settlers.

Yours truly,

\$16,000.00 A YEAR

Let us send you, absolutely free of charge, a publication telling how one man made over sixteen thousand dollars a year on his 48-acre farm in Florida. There is no mystery about it; no secret process used; just a straightforward story of his success, and *how you can do as well*. He makes an affidavit, giving the results of his work. An expert reporter of the United States Department of Agriculture, after having inspected our lands, says of this tract:

“Forty per cent. of this land is naturally *first-class* orange and grapefruit land; twenty-five per cent is *extra good* celery land; and the portion lying between the celery land and the orange land is *extra well adapted* to tomatoes, lettuce, potatoes, strawberries, peas, beans and all legume crops. It has as fine a system of natural drainage as I have seen anywhere in Florida.”

This land is being settled by a well-informed class of industrious people, who earnestly desire to be free from the evils of more crowded communities; free politically, religiously, industrially, economically, and in every other way permitted by the laws of our government and an enlightened public sentiment.

Our plan of reaching these people and allotting these lands is the best for settlers ever devised. LET US TELL YOU ABOUT IT.

Sign and mail the return portion of this card and we will send you a full explanation of this splendid plan, with maps of the land, letters from our settlers, and other information of vital importance to you. Then you can judge for yourself.

N. E. Dickman, Ruskin, Fla.
